

# COURSE OUTLINE

## 8-HOUR HAZWOPER ANNUAL REFRESHER - COURSE OUTLINE

### **HAZARDOUS WASTE OPERATIONS & EMERGENCY RESPONSE (HAZWOPER)**

*To fulfill annual refresher requirements of OSHA 29 CFR 1910.120(e),(p),&(q)*

#### **OVERVIEW:**

Compliance Solutions is proud to present our “**Activity-Based**” 8-Hour HAZWOPER Annual Refresher course. Unlike common “*lecture style*” courses, Students participate in several group activities to characterize and examine site scenarios and develop the necessary reasoning and thinking employees need when **working at hazardous waste sites** or **when responding** to emergency site situations (**para e**); This annual refresher training meets or exceeds OSHA requirements mandated under 29 CFR 1910.120. For “open enrollment” or onsite classes, we can also **fulfill requirements for emergency responders** at **TSDF’s** (Treatment, Storage, and Disposal Facilities) under (**para p**), as well as emergency responders who **respond to hazardous substance releases** (**para q**).

**NOTE:** *Because of the interactive nature of this training course, students should be prepared to fully participate in group scenarios, discussions, and class exercises to receive a course certification.*

#### **COURSE INTRO & ADMIN**

##### **1. ANNUAL REGULATORY UPDATES**

- A. OSHA
- B. EPA
- C. DOT

---

## COURSE OUTLINE

**Optional Qualitative Respirator fit testing** is available for a small fee. Students requiring fit testing must produce a current *respirator medical clearance* **and** be clean shaven **the day of the fit test**. We offer cost-effective, online medical clearances and respirator training if needed. Refer to OSHA's Respiratory Protection Standard, 1910.134 for information.

*\*This course fulfills requirements for multiple certifications. The Practical (dress-out) is required for ALL students completing 40-hour Hazwoper Certification. Refresher students are highly encouraged to participate.*
